Research Methodology

Roll No:

Total No of Printed Pages- 06

Total No of Questions 8

Maximum Marks- 30

Duration (hrs) 3

Section -1

Note: Attempt any three questions. All questions carry equal marks

- 1) What do you understand by research? What is research methodology?
Why do you think research is necessary?
- 2) Elaborate and explain the steps involved in research process
- 3) What is bibliography? What are its various parts in MLA style
- 4) Explain what is sampling. Explain various types of sampling
- 5) What is data collection? How is data collection? Explain the various data collection techniques. What are the attributes of a good questionnaire?

SECTION – II

Roll No. :

M.M. : 30

Total no. of pages : 2

Note : (a) Answer any three of the following questions.

(b) All questions carry equal marks. (3 X 10 = 30)

Q1. A NGO started an awareness campaign against corruption. For increasing awareness, NGO organized two days seminar on 'how common man can fight corruption'. 2150 people attended this seminar. Data of participants given below.

	Male	Female	Total
Day 1	535	627	1162
Day 2	551	437	988
Total	1086	1064	2150

Can it be inferred from the data that females are relatively more aware than males. Use chi square test at 5% level of significance. ($\chi^2 = 3.841$.)

2. Answer using F-test, whether the following two samples have come from the same population:

Sample 1 : 7 10 11 12 11 12 14

Sample 2 : 8 15 16 15 12 17 16 10 13

Use 5% level of significance.

Q3. Write short note on any two of the following:

(a) Type I error and Type II error

(b) Types of Hypothesis

(c) Systematic sampling

Q4. A sample of two types of electric bulbs were tested for length of life and following data were opted -

Category	Size	mean (hours)	Standard Deviation (hours)
Bulb 1	8	1234	36
Bulb 2	7	1036	40

Is the difference in the means sufficient to claim that bulb 1 category is superior to bulb 2 category.
