1. Provide the full form for the given abbreviations

- | | | | | |
|------------|--------|--------|---------|----------|
| a. COP/MOP | b. AAI | c. DOE | d. Trem | e. MSIHC |
| f. P2 | g. MSW | | h. GHG | i. GRI |
| j. VOC | | | | |

2. Environmental Good Practice in Para star Hotel – India

Background:

The Hotel Para Star in Chanakyapuri, India, is owned and managed by KTC Ltd., in affiliation with Youth Inn Inc., France. It has 140 rooms, two restaurants, a health club, a conference room and a business center.

Chanakyapuri lies at the foot of the Tirumala hills in Chittar District, Andhra Pradesh. It is a pilgrim center which receives an average of 30,000 visitors a day thus bringing in a large clientele for the hotel all year round.

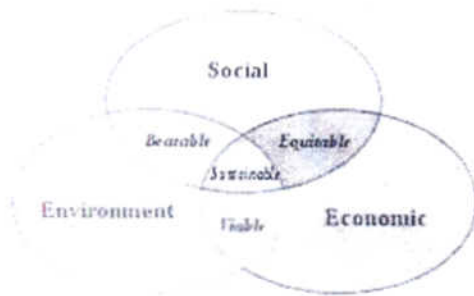

Corporate environmental commitment is part of the mission statement of Hotel Para Star: "To construct and manage our properties in a manner that preserves and enhances the environment and serves the public interest". In realising this mission, the hotel has to implement a number of CP measures.

Suggest some CP principles used for Process Modification

- Recovery, reuse and recycle
- Material Substitution
- Housekeeping

3. Write short notes on MOEF and ISO 14000

4. The present generation's actions should not compromise future generations. Explain this statement in the light of the following

5. As a medical superintendent how would you control and regulate the hospital wastes.
6. What measures should the company take in future to address increasing environmental pressures from different stakeholders? Suggest measures to promote the image of the company as an environmentally proactive enterprise.
7. Give examples of the equator principle of banks.
8. Briefly explain the parties and steps involved in the Clean Development mechanism with flowcharts?
9. NGOs are effective in spreading environmental awareness. Include some posters, banners, hoardings, poetry to support this view.
